

Form 2

The most advanced desktop 3D printer ever created.

The Form 2 is the new standard for professional-grade desktop 3D printing, available now.

Professional 3D printing on your desktop.

Create rugged engineering prototypes, intricate artwork, or complex, watertight structures. The Form 2 is your team's tool to innovate.

BIGGER PRINTS, INCREDIBLE RESOLUTION

With a 40% bigger build volume, and a 50% more powerful laser guided by custom precision optics, the Form 2 is capable of large prints with spectacular detail.

IMPROVED PRINT PROCESS

The Form 2's new slide peel mechanism and heated resin tank creates a reliable process for a range of prints: from solid parts to intricate details.

AUTOMATED RESIN SYSTEM

The Form 2's new resin system automatically dispenses materials based on the size of your prints. This means you can print big parts without pausing for refills.

CONNECTED PRINTING

The Form 2 comes with wireless connectivity and a touch-screen display. Now you can upload over wifi, manage your queue, and receive notifications when your prints complete.

FORM 2

Technology	Stereolithography (SLA)
